

# Exploring your journey.

The more you look the more you see.  
The more you see the more you think.  
The more you think the more ideas  
you have.

PRIMARY

SECONDARY

Sketch a detail of Tower Bridge below.  
Why did you choose this detail?

The way we look can affect what we see.  
Carefully roll this piece of paper into a tube and  
imagine it is a telescope. What can you see?

On your journey from Tower Bridge to the Design  
Museum, look around you all the time and draw a  
pattern that catches your eye in your sketch book.

Name 3 things that help us look  
more closely:

- 1.
- 2.
- 3.

Everything you see can be reduced to a set of  
simple lines and shapes. This is very useful  
when you are drawing on the move.

Look at the different types of street furniture.  
Try to find one of each of these...

Outdoor seating  
Bollard  
Lighting  
Signpost

In your sketch book design your own piece of  
street furniture that would help other young  
people find their way to the Design Museum.  
What would it look like? Where would it go?  
What would it do?

As you are walking along don't  
forget to look both up and down.  
Look up and see the tops of tall  
buildings, balconies and the sky.  
Look down and see snap-shots  
of detail like floor tiles, drain  
covers and road-markings.

Now you are looking closely at the world around  
you, you are ready to discover design at the  
Design Museum...enjoy!

# Exploring your **journey.**

The more you look the more you see.  
The more you see the more you think.  
The more you think the more ideas  
you have.
