Taping up a chair  
with foam to  
make it more like  
an office chair?

Turning your double  
bed upright to create  
a new standing desk?

suspending  
hammocks  
or swings  
as a way  
of relaxed  
working?

Creating  
new fold out  
seating areas  
to maximise  
space?

Designing  
a multi  
functional  
light for day &  
night?
